Lights, Camera, Broadway!

Writer:Angela Jung and Zahra Elamarti

Fourth Graders might be 8, 9 or 10 years of age, that's still "little" but not something to stop us from making a BIG production. The MAGIC of being in New York City! This is all about a fourth grade class visiting all of NYC landmarks with The Statue of Liberty a.k.a Amanda Villanueva disguised as a substitute fourth grade teacher. She takes the class on a field trip to the key landmarks of NYC like Broadway (of course), the New York Public Library, The Empire State Building, 5th Ave and City Hall! They break into catchy and interesting songs all the while learning about these famous landmarks.

While following the script to an interesting story. The Security Guard a.k.a Zaire Cummings says "Let me show you around!" gets the show started!

Daylight Savings!

Writer: Amanada Villanueva

Are you wondering what daylight savings is? Well you are about to read about daylight savings. Daylight savings is when you setback electronics like alarm clocks, older watches, analog clocks, microwave, oven, car, and etc. Daylight savings is during March and November when most Americans adjust their clocks by 1 hour. The reason daylight savings was created is to conserve energy resources. The reason we need daylight savings is because it allows the hour of daylight to stay coordinated with the time most people are active outside. If we did not have daylight savings, summer sunset would fall in the 7:00 hour. 1. Hawaii and Arizona do not participate in daylight saving time. 2. Daylight saving occurs twice every year. 3. Daylight saving starts at 2:00 am on the 2nd Sunday in March and ends on the 1st Sunday in November. 4. Many people think it's called Daylight Savings Time, but it's actually called Daylight Saving Time.
