

Pi Day!

Writer: Vivian Basha

You probably know that every year we do a *drumroll please * PIE DAY !!! But if you don't know what it is , basically you pay like a few bucks and throw a pie into a teacher's face ! Pretty fun, right ? Now you may be wondering , Why do we do this ? Well this "pie day " is because of Pi. Pi is the number that relates a circle's circumference to its diameter. Pi has a lot of numbers and its long ,extremely long . You probably know 3.14 but then 3.1415926535897932384626433832795028841971 6939937510582097494459230781640628620899862803482534211706 79. And that's only the first 100 digits . We celebrate this in March because we know Pi as 3.14 and March 14 is 3 / 14 like 3.14 ! This year P.S.108 raised \$650.00. The students government will be announcing the cause in which we will be donating the money to. To sum it up Pi day is just a fun time where we can appreciate 3.14 by a pie-ing a teacher and raise money for a good cause.

All about Ramadan!

Writer: Zahra Elamarti
Illustrator: Zaynah Kuka

Ramadan is a holy month for Muslims, it is an important holiday and event. During Ramadan, Muslims fast from sunrise to sunset(NO DRINKING OR EATING WHILE THE SUN IS OUT). Once the sun sets, families gather for a big meal to break their fast. People wake up before sunrise to eat a light meal to keep them going throughout the day.

Muslims who observe this month focus on reading the Quran, praying together and giving a lot of donations to people in need.

After the last day of Ramadan, friends and families gather to celebrate Eid. People decorate their houses and cook delicious food to eat and share. Another tradition is the gifting cash to children and families members by older relatives or family friends.

Happy Ramadan and Eid to all that celebrate!

You Go Girls!

Writer: Vivian Basha

In March it's Women's history month ! We celebrate this in March because it's the same month as International Women's Day on March 8th. Ever wonder, why do we celebrate it in the first place ? In the early 1900s women were treated badly. They weren't viewed by society as equals. They could not vote, they could not go places without a man present, own land or do certain things . Then, in 1920's women came together people fought for their rights, for example Susan B Anthony and Elizabeth Cady Stanton organized marches and participated in hunger strikes to show solidarity for women and demand change. It is because of these women that women and girls today can do all that we do .

Easter

Writer: Vincent Vu

We are going to discuss the holiday Easter. Easter is on March 31st, Easter is a Christian holiday. It's when Christians celebrate the resurrection of Jesus Christ and it's also a holiday because it's 3 days before Jesus crucifixion on April 3rd. The things we do to celebrate Easter are attending church services, exchanging gifts, enjoying festive meals with family and friends, and participating in Easter egg hunts. Now, you know why Easter is a Holiday on March 31st 2024.

The UEFA Champions League!

Writer: Joel Popaj

The Uefa Champions League is a soccer/football event that happens once a year. The Uefa Champions League goes like this, the top 4 teams in every league in Europe get to go in the champions league.

There are group stage which the top 2 teams in each group stage gets to go to the last 16, which 16 teams that go top 2 or higher on their group stage, go against each other. Then, the winner of that round, goes to the quarter finals which 8 teams go against each other. After that, they go on to the semi-finals which 4 teams go against each other. Then the big finale, The Uefa Champions League Final! Where 2 teams go against each other for the big, precious, and amazing Champions League Trophy!

Each game has 2 legs, 1 leg is two games, and 2 legs is 2 games. The current teams in the champions league are : Arsenal, FC Porto, Barcelona, Napoli, Dortmund, PSV.

March Madness!

Writer: Liam Bajana

Steph Curry gets the ball, he shoots, HE SCORES! I am going to talk about march madness. March madness is when college basketball teams compete and aspiring players get the ticket to fame. The term March madness came to be by describing an Illinois high school basketball team. It was first made sixty years ago made by Henry V. Porter, he was a coach and teacher at Athens high school in central Illinois but the term didn't find its way to the NCAA tournament until CBS broadcaster Brent Musburger (who used to be a sportswriter in Chicago) used it during coverage of the 1982 tournament. Every year teams compete in March to win the tournament and one day they could go to the NBA. In recent games Kansas is going against Stamford and Drake is going against WA state. There are going to be interesting games to follow. Now you know some history about MARCH MADNESS.
